

Mr. Abhiraj Tangri,

I am glad to inform you **DWAM SOFT** is interested in your project as you presented in power point presentation using razor API's.

We will be using attractive bootstrap admin panel to create you portal frontend and implement all points as discussed previously.

-Create customer portal to show following:

1. Home
2. Assets
3. Jobs
4. Documents

-Port data over from Razor to show customer the data

-Create back end access for admin

-Assist until project is completed and all data is shown correctly

Note: Any external app or 3rd party library which needed during the development will be purchased by you.

Budget / Time can be increased / decreased according to the requirement.

Technologies we will use.

- PHP / Laravel
- MySQL
- Bootstrap

Development charges (150,000 USD)

Upfront 50%

Regards:

Muhammad Faizan
